

# Website Management Testimonials

“Emily Journey has managed our website for 3 years and at least 80% of our business has come from the website they developed and manage for us. We’ve tried print, radio and online ads, but nothing compares to a website that is functional, well designed, and at the top of the list. She knows how to do this and the web site is the single biggest reason we have grown from 3 planes to six planes in just two years.”

“In the past few years we have used Emily’s team for our social media needs at the Hickory House Restaurant in Gahanna, Ohio. Their work is impeccable. They are quick to respond to our needs and requests. The most valuable part of their efforts are their communication as far as promotion, review response, and providing analytical data for us to review.”

“Emily Journey and Associates are not only the “Real Deal” when it comes to website management and SEO but are also incredibly knowledgeable, experts in what they do and good people! They completely redid our two websites [www.ezshelf.com](http://www.ezshelf.com) and [www.brillseat.com](http://www.brillseat.com). We previously tried numerous other firms some from India, others with an office here and work done in Eastern Europe, and others – our website prior to was a hodge-podge of hard coding, and over 39 plugins.

It was impossible for us to maintain the websites by ourselves and SEO was like a secret language only our previous consultants knew.

Emily and the team are committed to removing the curtain hiding the “Wizard of Oz” and to empowering individuals and companies to take back their website and marketing.”
