GENERAL SCOPE OF TRAINING

What are the benefits of SEO training?

More prospects

Gone are the days when you could launch a beautiful website and have potential customers automatically flock to your website. Consider your investment in print advertising.

Wouldn't you rather have more of your prospects

find your website through a **simple (and free) Google search result?**

"You're going to be way better off when you understand what the principals are so that you can enhance your own reputation and get the customers that you are now cold calling...to call you."

Jeffrey Gitomer,

No more outdated flyers

What about your sales team? Are you still providing them with outdated tools such as brochures and flyers?

Wouldn't it be great if you could support their efforts with a naturally strong **search engine ranking and inbound leads?**

Individual or Team Training?

One-on-One

- The independent business owner
- The in-house website manager
- The marketing manager

"Emily, I wanted to let you know that I just booked my first seminar using the SEO technique of 'naming your blog post what people search for' that you shared with me during our time together. Thank you so much for that wonderful tip!"
